**NEXTECH**

## A Few Words About Us

DIGITAL VISIONS is the leading Slovak publishing company for magazines in the field of digital technologies. Founded in 1993, the company has been positioned from the beginning as a publishing house focused on digital technology. It is engaged in publishing print and online media, as well as organizing professional conferences and social events.

The average monthly print circulation is 10,500 copies, with each copy read by an average of 3.8 readers. The PDF digital version is downloaded every month by more than 36,000 readers, more than 27,000 have access to the paid web content, and approximately 23,000 readers use the tablet app. The portal nextech.sk reaches about 159,000 unique visitors per month, and more than 11,000 subscribers receive the daily news summary. The total audience reach is approximately 280,000 readers.

Each year, we provide media support for around 70 professional conferences attended by approximately 9,000 IT professionals.

## CHARACTERISTICS
